TECHNICAL SKILLS

Languages: Python [Advanced], C++ [Intermediate], Java [Basic]

Frontend: HTML, CSS, JavaScript, React.js, Next.js [Intermediate], Flutter [Basic]

Backend: Node.js, Express.js, JWT, Prisma [Basic]

Databases: MongoDB, MySQL [Intermediate], Supabase [Basic]

Tools: Git, GitHub, Docker, Figma, Postman, Render, Netlify, Docker, Firebase, Android Studio, Vercel

PERSONAL STATEMENT

Full-stack web developer with practical experience across the MERN stack, REST APIs, and cloud deployment. Backed by national hackathon recognition and a growing mobile development skill set in Flutter and Firebase — looking to contribute to a product team that values clean code and fast iteration.

Experience:

CodeAlpha - Full Stack Web Development Intern (Remote)

1 Month

- Developed full-stack web applications using the MERN stack. | [Certificate](#)
 - Received a **Letter of Recommendation (LOR)** from **CodeAlpha** for outstanding performance during the Full Stack Web Development Internship. | [LOR](#)
-

Amdox Technologies - Web Development Intern (Remote)

2 Month

- Completed a 2-month Web Development Internship, contributing to an AI-powered ERP platform.
- Worked on full-stack web development and gained hands-on experience with modern web technologies. | [Certificate](#)

PROJECTS

GreenNest | [Github](#)

April 2025- May 2025

- Built GreenNest, a sustainability-focused web application that encourages users to adopt and share eco-friendly lifestyle choices through an interactive community platform.
 - Tech Stacks** - React.js, Node.js, Express.js, MongoDB, Figma, REST APIs.
 - Implemented authentication, product management, and order handling modules with role-based access, making it adaptable for small businesses or learning projects.
-

E-com | [Github](#)

Jan 2025- April 2025

- Built an e-commerce platform for buying and selling products with real-time inventory and user contributions.
 - Tech Stacks** - React.js, Node.js, Express.js, MongoDB, Figma, JWT, REST APIs.
 - Implemented authentication, product management, and order handling modules with role-based access, making it adaptable for small businesses or learning projects.
-

EDUCATION ENROLLMENT

Kalvium's UG program in CS (Software Product Engineering)

2024-28

Chennai | B.Tech, Vels Institute of Science, Technology & Advanced Studies

ACHIEVEMENTS & EXTRACURRICULARS

AI Hackathon - Top 25 Finalist | [Certificate](#)

- Developed an AI-driven prototype within 24 hours at the intra-college SquadFusion Hackathon, demonstrating problem-solving under time constraints.

Walmart Global Tech - Advanced Software Engineering Job Simulation | [Certificate](#)

- Completed practical tasks covering advanced data structures, software architecture, relational database design, and data merging.
